Hamptons Salt Company

Description: Hamptons Salt Company is the preeminent provider of all natural sea salt. The company was founded by CEO Peter Pierce after discovering consumer table salts were stripped of natural minerals and included potentially unhealthy added chemicals, while researching the ingredients included in the foods he was serving his family. With Hamptons Salt, merchants scour the world to offer customers the best selection of raw salts, flavor infused salts or smoked salts. Available in a variety of flavors from the decadent black truffle salt to the luxurious Fleur de Sel sourced from France, each salt is packaged in unique black gift box for delivery priced from \$9.99-\$29.99 for individual containers perfect for gift giving.
